COWNS FOR KLONDIKE BELLES Sells Silks, Filmy Luces and Lingeria 1 Fabulous Prices,

A solid little fortune with shimmering silks, filmy laces and dainty lingerie for its besis, the result of thirty days spent in Dawson last summer, is the modest boast of Mrs. Nellie Humphrey, a pretty, black-eyed young woman who has been in Seattle preparing for another trip into the metropolis of the far north

It was the suick wit, business sagac-ity, and, last but not least, the pluck of Mrs. Humphres that enabled the fair sex of Dawson to revel again after months of deprivation in the frills and fancies of dress so dear to the femirine heart. That masculine pocketbooks were quick to open in response o such demand: was evidenced by the way in which Mrs. Humphrey's stock n trade disappeared. It melted away as did the mows in the arctic sunthine. Mrs Humphrey says she is cally ashamed to tell what her goods rought her-that it would be ridiculogs. But it is a fact that her eptire. Mini risked on the one lucky venture id not exceed \$2,000. She sailed from cattle last Wednesday with a far largor stock of the finest goods of the kind mentioned Her faith in the gold fields months, and intends to bring back to Seattle just \$65,000. Dawson's belles imply went crany over Mrs. Humpher's stock, and asked the price of nothing. Here is the way the latter alls about it: "The prices I got for ome of my goods were simply shameall so exerbitant that I can't bear to all of them. But what else could you rapect when fatirons were selling for \$55 a pair, brooms for \$16 each, and moose-steak cut as thin as a bridal vell for \$2 an invisible pound? I was almost forced to sell the very clothes off my back. One old habit I had almost worn out sold for \$100. Several bats brought as bigh as \$125 each, Ladies' shoes I sold for \$50 a pair."-Scuttle

## OPEN LETTERS FROM

Jennie E Green and Mrs. Harry

JENNIE E. GETTS, Denmays, lows

writes to Mrs. Pinkham: "I had been sick at were and tried wer heard of, but Was troubled the pains in the Through my to try Lydia E. periods for seven year almost everything I eve without may benefit with backache, heads shoulders and dizzine mother I was induce Pinkham's Vegua Compound, and it has done me so much good. I am

now sound and well."

Mrs. HARRY HARDY, Riverside, Iowa, writes to Mrs. Pinkham the story of her struggle with serious ovarian trouble, and the benefit she received from the use of Lydia E. Pinkham's Vegetable Compound. This is her letter:

"How thankful I am that I took your medicine. I was troubled for two years with inflammation of the womb and ovaries, womb was also very low: I was in constant misery. 'I had heart trouble, was short of breath and could not walk five blocks to save my life. Soffered very much with my back, had headache all the time, was pervous, menstruations were irregular. and painful, had a bad discharge and was troubled with bloating. I was a perfect wreck. Had doctored and taken local treatments, but still was no better. I was advised by one of my neighbors to write to you. I have now finished the second bottle of Mrs. Pinkham's Vegetable Compound, and am better in every way. I am able to do all my own work and can walk nearly a mile without fatigue; something I had not been able to do for over two years. Your medicine has done me more good than all the doctors."

DR. TALMAGE'S SERMON.

THE EMINENT DIVINE'S SUNDAY DISCOURFE.

Subject: "Across the Continent"-Spiritua! Thoughts Suggested While Viewing Scenes of Majesty and Grandeut Wrought by the Hand of God.

TEXES: "Streams in the desert." - Isalah xxxv., 6. "He toucheth the smoke."—Psalms civ., 32.

My first text means irrigation. It mean! the waters of the Himalaya, or the Fyronees, or the Sierra Nevadas poured through canals and aqueducts for the fertilization of the valleys. It means the process by which the last mile of American barrenness which the last mile of American barrenness will be made an apple orchard, or an orange grove, or a wheat field, or a cotton plantation, or a vineyard—"streams in the desert." My second text means a volcano like Vesuvius or Cotopaxi, or it means the geysers of Yellowstone Park or of California. You see a hill caim and still, and for ages immovable, but the Lord out of the heavens puts His finger on the top of it, and from it rise thick and impressive vapors. "Re rise thick and impressive vapors: concheth the hills and they smoke!"

Although my journey across the continent this summer was for the eighth time, more and more am I impressed with the divine hand in its construction, and with its greatness and grandeur, and more and more am I thrilled with the fact that it is all to be irrigated, glorified and Edenized. What a change from the control of What a change from the time when Daniel Webster on yonder Captoline Hill said to weister on vonder Captonne in Said to the American Senate in regard to the centre of this continent, and to the regions on the Pacific Coast. What do you want with this vast, worthless area, this region of savages and wild beasts, of deserts and cactus, of shifting sands and prairie dogs? To what use could we ever put these great deserts or these great mountains, impenetrable and covered with eternal snow Western coast, rock-bound, cheerless and uninviting, and not a harbor on it? I will never vote one cent from the public treasury to place the Pacific coast one inch nearer Boston than it now is." What a mistake the great statesman made when he said that! All who have crossed the continent realize that the States on the Pacific Ocean will have quite as grand opportunities as the States on the Atlantic, and all this realized bossession.

a evidenced by the fact that she says the most remarkable thing between the the will stay in Dawson but four Atlantic and Pacific? It is the figure of a cross on a mountain in Colorado. It is a cross on a mountain in Colorado. It is called the "Mount of the Holy Cross." A horizontal crevice filled with perpetual anow, and a perpendicular crevice filled with snow, but both the horizontal line with snow, but both the horizontal line and the perpendicular line so marked, so bold, so significent, so unmistakable, that all who pass in the daytime within many miles are compelled to see it. There are valion of this continent means the miles are compelled to see it. There are miles from Asia, for we are only thirty miles from Asia at the northwest. miles are compelled to see it. There are some figures, some contours, some mountain appearances that you gradually make ent after your attention is called to them. So a man's face on the rocks in the White Mountains. So a maiden's form cut in the granite of the Adirondecks. So a city in the moving clouds. Yet you have to look under the pointing of you. friend or guide for some time before you can see the similarity. But the first instant you glance at this side of the mountain in Colorado, you ary out. "A cross! A So, you see, America evangelized, Ash. cross: Do you say that this reological the scription just happens so? No! That cross so the Coloralo mountain is not a human device or an accident of nature, or the freak of an earthquake. The hand of God out it there and set it up for the nation to look at. Whether set up in rock before the cross of wood was set up on the bluff back of Jerusalem, or set up at some time since that assassination. I believe the Creator meant it to suggest the most notable event it. all the history of this planet, and He hung it there over the planet, and He hung it there over the heart of this continent to indicate that the only hope for this nation is in the Cross on which our Immanuel died. The ods were vocal at our Saviour's birth.

> I supposed in my boyhood, from its size on the map, that California was a few yards across a ridge of land on which one must walk cautiously lest he bit his sed it to be in my boyhood. I have to be larger than all the States of ew England and all New York State and Pennsylvania added together and if add them together their square miles far short of California. And then all nd South Dakota, Washington, Montana, labo and Wyoming. Each State an em-

nearity of our continental acreage you nust remember that wast reaches of our public domain are uncultivated heaps of dry sand, and the Bad Lands of Montana and the Great American Desert. I am glad you mentioned that. Within twenty-live years there will not be between the antic and Pacific coasts a hundred miles of land not recialmed either by ough or miners crowbar. By irrigation, waters of the rivers and the showers of enven in what are called the rainy sea-on, will be guthered into great reservoirs, son, will be gathered into great reservoirs, and through aqueducts let down where and when the people want them. Utah is an object lesson. Some parts of that Territory which were so barren that a spear of grass could not have been raised there in a hundred years, are now rich as Lancaster County farms of Pennsylvania, or Westchester farms of New York, or Somerset County farms of New Jersey Exferiments have proved that ten acres of ground irri-gated from waters gathered in great hydrological basins will produce as much as fifty acres from the downpour of rath as seen in our regions. We have our freshets and our droughts, but in those lands which are to be scientifically irrigated there will be neither freshets nor droughts. As you take a pitcher and get it full of water, and then set it on a table and take a drink out of it when you are thirsty and never think of drinking a stitcherful all at once, so Mon-tana, and Wyoming and Idaho will catch the rains of their rainy season and take up all the waters of their rivers in great ofteners of reservoirs, and refront their pitchers of reservoirs, and refresh their

and whenever they will.

But the most wonderful part of this American continent is the Yellowstone Park. My two visit there made upon me an impresdon that will last forever. Go in by the Moneida route as we did this summer and save 250 miles of railroading, your stage-coach taking you through a day of scenery as captivating and sublime as the Yellow-stone Park itself. After all poetry has exhausted itself concerning Yellowstone Park, and all the Morans and Bierstadts and the other enchanting artists have completed their canvas, there will be other relations to make, and other stories of its beauty and to make, and other stories of its beauty and wrath, splendor and agony, to be recited. The Yellowstone Park is the geologist's paradise. By cheapening of travel may it become the nation's playground! In some portions of it there seems to be the anarchy of the elements. Fire and water, and the vapor born of that marriage, terrific. Geyeser comes or hills grated that have been of the elements. Fire and water, of the elements. Fire and water, wapor born of that marriage, terrific. Governor born or hills accreted that have been proving?

picture-gallery. The so-called Thanatopsis Geyser, exquisite as the Bryant poem it was named after, and Evangeline Geyser, lovely as the Longfellow heroine it commemo-

But atter you have wandered along the But after you have wandered along the geyserite enchantment for days, and begin to feel that there can be nothing more of interest to see, you suddenly come upon the percration of all majesty and grandeur, the Grand Canon. It is here that it seems to me—and I speak it with reverence—Jehovah seems to bave surpassed Himself. It seems a great guich let down into the eternities. Masonry by an omninotent eternities. Masonry by an omnipotent trowel. Yellow! You never saw yellow unless you saw it there. Red! You never saw red unless you saw it there. Violet! You never saw violet unless you saw it there. Triumphant banners of color. In a there. Triumphant banners of color. In a cathedrai of bas it. Sunrise and Sunset married by the set lug of rainbow ring. Gothic arches, Corinthian capitals, and

Gothic arches, Corintman capitals, and Egyptian basilicas built before human architecture was born. Huge fortifications of granite constructed before war forget its first cannon. Gibraltars and Sebastopols that never can be taken. Thrones on which no one but the King of heaven and earth ever sat. Found of waters at which the kills are largered. the bills are baptized, while the glant cliffs stand around as sponsors. For thousands stand around as sponsors. For thousands of years before that scene was unveiled to human sight, the elements were busy, and the goysers were howing away with their hot chisel, and gladers were pounding with their cold hammers, and hurricanes were cleaving with their lightning strokes, and hallstones giving the duishing teaches, and after all these forces of nature had done their best, in our century the curtain after all these forces of nature and done their best, in our century the curtain dropped, and the world had a new and divinely inspired revelation, the Old Testament written on papyrus, the New Testament written on parchiment, and this last Testament written on the rocks.

Standing there in the Grand Canon of the Tellowstone Park for the most part we had a floor awhile it finashed.

held our peace, but after awhile it flashed upon me with such power I could not help but say to my comrades. "What a half this would be for the last Judgment." See that mighty cascade with the rainbows at the foot of it? Those waters congealed an transfixed with the agitations of that day what a place they would make for the shi ing feet of a Judge of quick and dea And those rainbows look now like t crowns to be cast at His feet. tom of this great canon is a floor on wh the mations of the earth might stand, a reverberation of archangels trumpet to would be through all these gorges from these caveras and over all the heights. Why should not the greatest all the days the world shall ever see of

I have said these things about the magnitude of the continent, and given you few specimens of some of its wonders

The Americo-Aslatic bridge which will yet span those straits will make America. Asia Europe and Africa one continent. So, you see, America evangelized, Asia will be evangelized. Europe taking Asia from one side and America taking it from the other side. Your children will cross that bridge. America and Asia and Europe all one what subtraction from the pangs of seasickness! and the prophecies in Revelation will be fuifilled, "there shall But do I mean literally that this American continent is going to be all gespelized? I do. Christopher Co-lumbus, when he went ashore from the Nanta Maria, and his second brother Alonro, when he went ashore from the Finta and his third brother Vincent, when he went ashore from the Nina, took pos-Satan has no more right to this country than I have to your pocket-book. To hear him talk on the roof of the temple, where he proposed to give Christ the Ringdoms of this world and the glory of them, you might suppose that Satan was a great capitalist or that he was loaded up with real estate, when the owned an acre or an inch of ground on this planet. For that reason I protest against something I heard and saw this summer and other summers in Montana and Oregon and Wyoming and Idaho and Colorado and California. They have given devilatio and California. They have given West and Northwest.

West and Northwest.
As soon as you get in Yellowstone Park
or California you have pointed out to you
blaces cursed with such names as The
Devil's Silde, The Devil's Kitchen,
The Devil's Thumb, The Devil's Puiolt, The Devil's Mush-Pot, The pit, "The Devil's Mush-Fot," The Devil's Tea-Kettle. The Devil's Saw-Mill. "The Devil's Machine-Shop," "The Devil's Gate," and so on. Now it is very much needed that geological surveyor or Congressional Committee or group of distinguished guests go through Montana and Wyoming and California and Colorado and give other names to these places. All these regions belong to the Lord, and to a Christian nation; and away with such Christian nation; and away with suc-Plutonic nomenciature; But how is this continent to be gospolized? The pulpit and a Christian printing-press harnessed together will be the mightlest team for the first plough. Not by the power of cold, formalistic theology, not by ecclesiastical technicalities. I am sick of them, and the world is sick of them. But it will be done by the warm-hearted, sympathetic presentation of the fact that Christ is ready to pardon all our sins, and heat all our wounds, and save us both for this world and the next. Let your religion of glaciers crack off and fall into the Guif Stream and get melted. Take all your creeds of all denominations and drop out of them all human phraseology and out in only scriptinent to be gospolized? The pulpit and denominations and drop out of them all human phraseology and put in only scrip-tural phraseology, and you will see how quick the people will jump after them. On the Columbia River we saw the sal-

mon jump clear out of the water in different places, I suppose for the purpose of getting the insects. And if when we want to fish for men and we only have the right kind of bait, they will spring out above the flood of their sins and sorrows. to reach it. The Young Men's Christian Associations of America will also do part of the work. They are going to take the young men of this nation for God. These institutions seem in better favor with God and men than ever before. Business men and man than ever perore. Business men and capitalists are awaking to the fact that they can do nothing best r in the way of living beneficence or in last will and testament than to do what Mr. Marquand testament than to do what Mr. Marquand did for Brooklyn when he made the Young Men's Christian paiace possible. These institutions will get our young men all over the land into a stampede for heaven. Thus we will all in some way help on the work, you with your ten talents. I with five, somebody else with three. It is estimated that to irrigate the arid and desert lands of America as they ought to be irrigated, it will cost about one hundred million dollars to gather the serid and desert lands of America as they ought to be irrigated, it will cost about ase hundred million dollars to gather the waters into reservoirs. As much contribution and effort as that would irrigate with Gospel influences all the waste places of this continent. Let us by prayer and contribution and right living all help to fill the reservoirs. You will carry a bucket, and you a cup, and even a thimbleful would help. And after a while God will send the floods of mercy so gathered, pouring down over all the land, and some of us in heaven will sing with Issiah, "In the wilderness waters have broken out, and streams in the desert," and with David, "There is a river the streams whereof shall make gind the sight of God."

COMPORTING WOEDS TO WOMEN.

The Surgical Chair and its Tortures May be Avoided by Women Who Heed Mrs. Pinkham's Advice.

Woman's modesty is natural: it is charming.

To many women a full statement of their troubles to a male physician is alnot impossible. The whole truth may be told to Mrs. Pinknam because she a woman, and heradvice is freely offered to all women sufferers.

Mrs. O. E. LADD, of 19th and N Sts., Galveston, Texas, whose letter is printed below, was completely discouraged when she first wrote to Mrs. Pinkham. Here is what she says:

"DEAR MES. PINKHAM:-I wrote to you some time ago. telling you of my ills, but now I write to thank you for the good your remedies have done me. I have used two bottles of Lydia E. Pinkham's Vegetable Compound, three packages of Sanative Wash, and one box of Liver Pills, and to-day I call myself a well woman. I suffered with backache, constant headache, whites, sick stomach, no appetite, could not sleep, and was very nervous. At time of menstruation was in terrible pain. Your medicine is worth its weight in gold. I never can say enough in praise of it. I have recommended it to many friends. If only all suffering women would try it, there would be more happy homes and healthy women. I thank

you for the change your medicine has made in me. Lydia E. Pinkham's Vegetable Compound and Mrs. Pinkham's advice, have

saved thousands of women from hospital operations. The lives of women are hard; whether at home with a ceaseless round of dotie duties or working at some regular employment, their daily tasks make mostic duties or working at some regular employment, the contrint war on health. If all women understood themselves fully and knew contrint war on health. If all women understood themselves fully and knew how exactly and sorthingly Lydia E. Pinkham's Vegetable Compound acts on the female organs, there would be less suffering.
